180º TURN STACK & NESTING BOXES
9000 series

Solid Boxes

When empty they nest in each other to reduce the volume. Stacks by turning 180º.

The apertures below the handles facilitate the handling of the box.

The **Lid Ref. 3006_** enables the use of security straps, for tamper evidence.

- with wheels, solid walls and perforated base.

GRAPE HARVEST

The boxes are stackable. You may stack multiple boxes without crushing the grapes, preventing premature fermentation.

By turning the boxes 180º, they nest inside each other when empty, for ease of handling and space saving.

Lid and dolly available.

180º TURN STACK & NESTING BOXES
2000 series

Solid Boxes

When empty they nest in each other to reduce the volume. Stacks by turning 180º.

These 2000 Series boxes offer an increased internal volume when compared with other 180º turn stack & nesting boxes.

When fitting a **Lid Ref. 3006_** with security straps, tamper evidence is ensured because these boxes do not have apertures below the handles.

STACKING BOXES

Originally developed for the cheese and pastry industries, they are also used for other applications requiring dimensions different from 600x400mm or 400x300mm.

The **Lid Ref. 7860_** is suitable for Ref. 7870_ and Ref. 7871_, and it enables stable stacking of one pile of Ref. 9280_ or 2 piles of Ref. 9015_.

Originally developed as as **fish box**, it is also used for many other applications which require specific dimensions different from 600x400mm.

The drainage holes in the box are designed to ensure that liquids drain along the outer walls of the boxes below, preventing contamination by liquids from the boxes above.

Its design enables staggered stacking in order to optimise the use of space in the hulls of fishing boats.
