

180° TURN STACK & NESTING BOXES 9000 series

Solid Boxes

When empty they nest in each other to reduce the volume. Stacks by turning 180°.

The apertures below the handles facilitate the handling of the box.

The Lid Ref. 3006_ enables the use of security straps, for tamper evidence.

- with wheels, solid walls and perforated base.

GRAPE HARVEST

The boxes are stackable. You may stack multiple boxes without crushing the grapes, preventing premature fermentation.

By turning the boxes 180°, they nest inside each other when empty, for ease of handling and space saving.

Lid and dolly available.

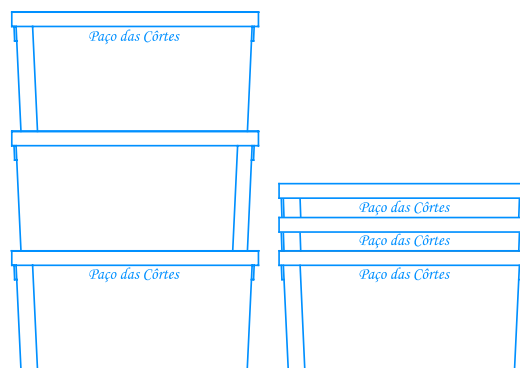

Solid Boxes

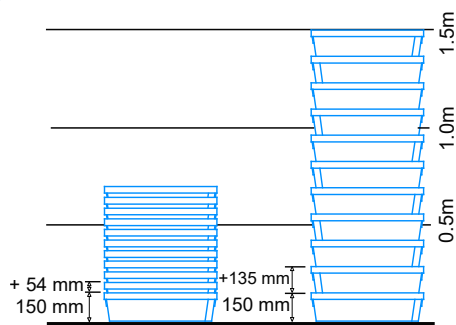

Ref.	Ext. dim.	Cap.	Qty./pallet
9901_	600x400x150mm	25L	195/

STACKING BOXES

Originally developed for the cheese and pastry industries, they are also used for other applications requiring dimensions different from 600x400mm or 400x300mm.

The **Lid Ref. 7860_** is suitable for Ref. 7870_ and Ref. 7871_, and it enables stable stacking of one pile of Ref. 9280_ or 2 piles of Ref. 9015_.

Originally developed as a **fish box**, it is also used for many other applications which require specific dimensions different from 600x400mm.

The drainage holes in the box are designed to ensure that liquids drain along the outer walls of the boxes below, preventing contamination by liquids from the boxes above.

Its design enables staggered stacking in order to optimise the use of space in the hulls of fishing boats.
